Higher Expectations... Extraordinary Results Industry-leading technology and innovation. Craftsmanship unrivaled in quality and performance. Outstanding products. Impeccable service. The confidence and trust of every customer, every day.

For more than 40 years, Gentek Building Products, Inc. has manufactured siding and accessories in beautiful styles and exquisite colors. With durable finishes that are easy to maintain. Backed by warranties that deliver lasting protection and excellent value. Giving you the expertise and personal touch—that make us truly a part of your home.

Accent the architecture of your home with coordinating soffit, fascia and trim. Beautifully crafted exterior accessories will give your home a distinctive touch of personality and visual appeal.

Double 4" Clapboard

8" Clapboard

A Legacy of Quality Leave it to SteelTek to create a luxurious finish for your home while protecting it with a durable armor of steel. This pioneer of steel siding features a handsomely crafted woodgrain texture and beautiful palette of colors for an exquisite home exterior.

Superior Steel Strength

If you are considering steel siding for your home, chances are you've already realized the benefits that only steel can deliver. It's unmatched when it comes to protecting your home from harsh weather and other hazards.

SteelTek's superior strength begins with pretreated galvanized steel that is primed and heat-fused with a thick coating of PVC (polyvinyl chloride). This beautiful and resilient finish will stand up strong against blistering heat, pounding hail, heavy snow and other punishing weather.

Easy Upkeep

When it comes to maintaining your SteelTek siding, you can relax. There's no need for time-consuming scraping and painting or struggling with ladders. Just a simple rinse with a garden hose will remove most airborne dust and dirt. In most cases, your siding will clean up quickly and easily.

Environmentally Friendly

Did you know that approximately 88% of all steel products are recycled into new steel products at the end of their useful life? Unlike some building materials such as fiber cement, SteelTek steel siding is a recyclable product. It also promotes energy conservation by creating a tight building envelope for more efficient heating/cooling performance year-round. "Building green" with SteelTek steel siding leaves a smaller environmental footprint on the earth. It's good for you and good for the environment!

Investing in Your Home

Like many people, your home may be your single most important investment. When you consider the time and money spent repainting year after year, you'll see why steel siding is smart choice. SteelTek's easy upkeep and attractive appearance can enhance the curb appeal of your home while enhancing its overall value. And in today's resale market, a beautiful, low-maintenance exterior can be an important amenity.

Siding with Perfection

Perfection? It's never too much to ask. Our Color Clear Through® system makes it easy to find the perfect color match for your exterior design. This exclusive selection of customer-preferred colors ensures that all Gentek products—siding, soffit, fascia, trim and rainware—will beautifully match throughout our vinyl, aluminum and steel product lines.

Commanding Steel Strength

SteelTek's rugged steel construction is virtually impervious to outdoor elements. And unlike wood, compressed particle board or fiber cement, it won't absorb moisture. It's also resistant to dents, warping, fire, termites, chalking, fading, and brittleness in cold weather.

High Dimensional Stability

Rigid steel panels deliver high dimensional stability and resist buckling and the wavy appearance that can result from expansion and contraction caused by extreme weather changes. SteelTek steel siding also will subtly conceal flaws in the exterior's substructure, keeping wall lines exceptionally smooth and straight.

Added Dimension SteelTek steel siding's generously proportioned 1/2" butt height adds greater dimension and style with dramatic shadow lines.

Smooth Finished Look While fiber cement and compressed particle boards typically require caulked joints, SteelTek's "seams" are crisp and clean.

A Word About Quality

Gentek delivers the confidence and value only a true leader can provide. We proudly stand behind our products with the full faith of our more than 40 years of manufacturing expertise and some of the strongest warranties in the industry. Our voluntary participation in rigorous quality certifications and independent testing are further assurance you have made an excellent selection for your home.

A Lifetime of Protection

SteelTek steel siding is backed by a lifetime limited, non-prorated, transferable warranty with 50 year hail and 15 year chalk and color change protection. Not only is it a premier siding product, it also carries one of the strongest warranties in the industry.

For complete warranty information, including limitations, ask your dealer for a copy of the SteelTek steel siding warranty.
